LETTER FROM THE CHAIRMAN

MANUEL MANRIQUE

Sacyr Foundation Chairman

Welcome to the first activity report of the Sacyr Foundation for 2023. This year, thanks to the effort of everyone who is part of Sacyr, we have fulfilled our purpose of advancing society towards a more sustainable future by developing projects that generate a positive social, economic, and environmental impact for the benefit of all stakeholders.

In this report, we offer you detailed information about the development of our collaborations with more than 60 organizations in the social, environmental, and innovation ecosystem sectors. We are proud to have done work that has directly impacted over 60,000 people and indirectly benefited more than 350,000.

We have expanded our boundaries and have undertaken social action in other parts of the

world through our infrastructure and P3 projects. We are currently present in seven countries: Colombia, Chile, Peru, the United Kingdom, the United States, Kenya, and Spain, with a social investment of over €900,000.

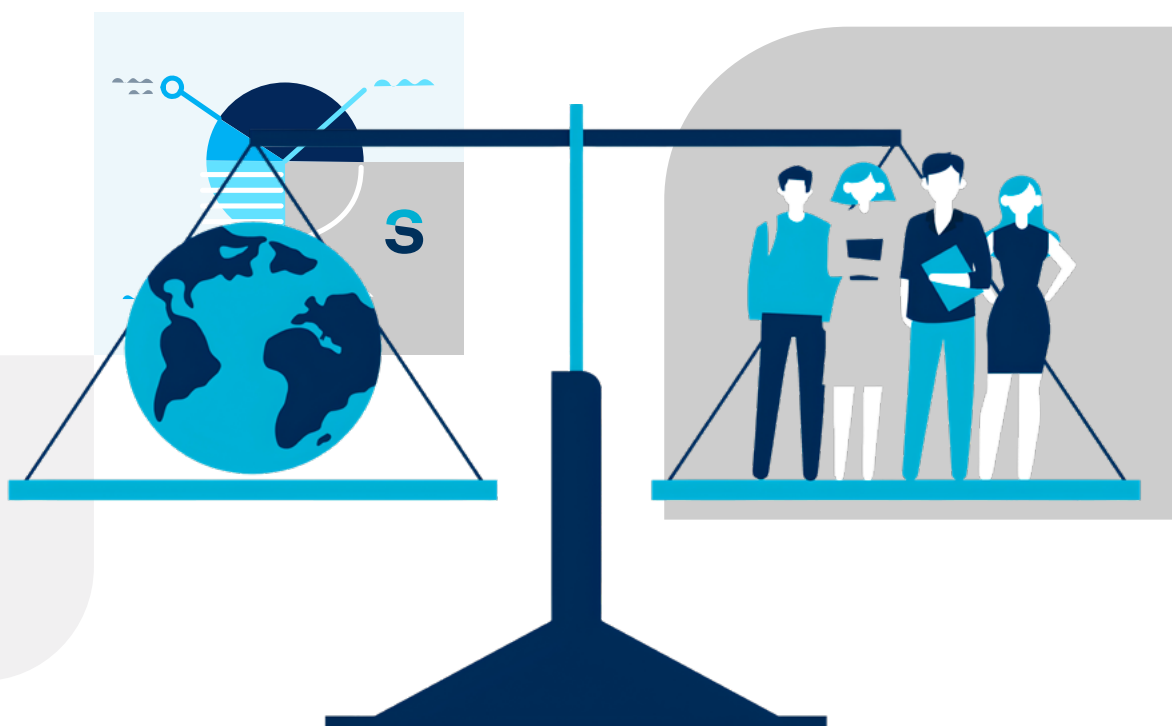

Finally, I would like to emphasize that this achievement is only possible due to the dedication and solidarity of Sacyr's professionals. More than 600 volunteers have collaborated with the Foundation during 2023 to generate a real impact on our social ecosystem. Supported by their enthusiasm and commitment, we will continue to overcome new challenges and advance towards an exciting future of growth.

Thank you very much.

OUR PRESENCE

Sacyr Foundation currently has a consolidated presence in the following countries: Spain, Colombia, Chile, Peru, the United Kingdom, the United States, and Kenya.

MISSION, VISION, AND VALUES

4

MISSION

To contribute to building a better, fairer, more inclusive, and sustainable society, thanks to our innovative proposal, our commitment to the environment, and our focus on the professional and personal development of a diverse workforce.

VISION

To be a benchmark in society by promoting well-being and sustainable development in the regions where we are present, developing initiatives grouped in social action to facilitate the progress of vulnerable groups, and corporate volunteer work.

VALUES

These six values define us, guide our path, and mark our course of action. Values that inspire all stages of our projects and reinforce our social proposition.

Excellence

We are committed to quality: we like things well done. We are perfectionists and professionals. We are passionate about what we do and do it better than anyone.

Innovation

We imagine and build the future. We are brave, do not give up, and always move forward. We overcome all our challenges and turn them into successes.

Team Spirit

We work together to achieve our objectives. We are loyal and trust in each other. We help those around us to face challenges and fulfill dreams.

Social Commitment

We are honest, trustworthy, and 100% dedicated to those who trust in us. We care for the talent of the people who are part of our project. We ensure equal opportunities and thus respect diversity.

Adaptability

Throughout our more than 35 years of history, we have demonstrated our resilience and pragmatism in facing challenges. We work with austerity to be prepared for any challenge.

Environmental Ethics

We develop our activity and approach any new project with three premises: responsibility, efficiency, and respect for the environment in which we develop it. Sustainability is our way of seeing the world.

Club del Voluntariado

There are more than **600 volunteers** in the **Volunteers Club**, a community of volunteers with a spirit of solidarity eager to do their part to make this world more sustainable for everyone.

From the **Club**, we promote respect for the environment and social exclusion risk groups through activities in which volunteers and their families work hand in hand to reduce inequalities and protect the planet's health while spending a fun day where they can bond and get to know each other better outside the work environment.

We celebrated the 2nd Sacyr Foundation Week

Acknowledgments to Foundations and Volunteers

On **November 22**, we awarded our most committed Sacyr volunteers at the **"National Volunteer of the Year Awards 2023,"** introduced this year as a tool to highlight the significant impact of corporate volunteering activities that hundreds of Sacyr employees undertake.

During this day, we also took the opportunity to recognize the collaborating foundations, with the presence of the president of the Sacyr Foundation, Manuel Manrique, who presented the awards.

Thank you to all the collaborating foundations, associations, and NGOs!

We celebrated the 13th Sacyr Foundation Innovation Awards

Valerann's solution to improve the safety and sustainability of infrastructures won this edition, and **Kraken Sense** and **SPH Engineering** each received a runner-up prize. Of the 205 proposals submitted, these three best addressed the three challenges we posed in our open innovation program, **Sacyr iChallenges**.
